

**A.** Install upper bracket on pole with banding straps and buckles, making certain the top of the bracket reads up as shown. Tighten strapping and insert rod. Secure rod to bracket with "D" clip.

**B.** Install bottom bracket with UP reading as indicated using (1)adjustable banding strap only on lower part of bracket. Tighten adjustable strap.

**C.** Slide upper sleeve of banner onto top fiberglass rod, secure banner to bracket with cable tie and then slide bottom fiberglass rod into lower sleeve of banner. Insert bottom rod into bottom bracket and secure to bracket with "D" clip. Secure banner to bracket with cable tie.

**D.** Adjust bottom bracket downward until banner is taut on inner edge of banner.

**E.** Install banding on upper portion of bottom bracket to final position. Replace adjustable lower banding with non-adjustable banding (if installation is using 3/4" SS strapping with buckles) or tighten lower banding strap to final tautness.

**CLEANING** = Clean banners with either clear water or water with a small amount of soap (NOT DETERGENT). Thoroughly rinse and dry before storing.
